EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Kulaga on August 29, 2005.

The application has been amended as follows:

in claim 1, in line 6, "an second sheet" has been changed to - - a second sheet - -;

further in claim 1, in line 8, after "second sheet," the following has been inserted:

- - said barrier sheet disposed adjacent to said first sheet, - -;

in claim 7, in line 14, after "inflatable portion" the following has been inserted:

- - said barrier sheet disposed adjacent to said first sheet - -;

in claim 13, in line 14, after "one channel" the following has been inserted:

- - , said barrier sheet disposed adjacent to said first sheet - -; and after the ending colon in line 14, - - and - - has been inserted.

Art Unit: 3739

The following is an examiner's statement of reasons for allowance:

none of the prior art of record discloses or suggests an inflatable blanket comprising in part the combination as claimed. Irani (5,405,370) discloses an air blanket with a first sheet (28) which is air permeable, a barrier sheet (14a) which is air impermeable attached to a second sheet (14b) made of paper fibers or of textile fabric, an inlet opening, a pair of side channels with a channel between, and an access opening (272). To distinguish the applicant's invention over Irani, the claims have been amended as above to better define the invention with the barrier sheet adjacent the first sheet, thereby positioned in at least one channel for preventing the exhaustion of the air from the at least one channel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

The corrected drawing filed 6/6/2005 are accepted by the examiner.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. DeVilbiss et al. (5,989,285) disclose a temperature controlled

blanket assembly with a first, second and third or barrier sheet, but also lack the barrier sheet being adjacent the air permeable sheet (28).
